This Session

taxlist

Data Shapes

- ▶ Taxonomic Lists in `taxlist`
- ▶ Data Formats and Shapes

Handling taxonomic lists in R

Also possible to work with other organisms and even with syntaxonomy

Automatic updates in Documents

Online lists

<https://syntax.kamapu.net/>

Slot structure

Reference to Alvarez & Luebert

Some methods

- ▶ subset
- ▶ summary
- ▶ indented_list
- ▶ count_taxa

Data Shapes

IAVS-LAC

Comparing database list with cross tables

This Session

Mention to package `tidyr`
